

Year 1 Home learning

The majority of our home learning tasks will be done on Purple Mash.

For maths, you will have access to your Active Learn account.

You could also start IDL- the programme is very clever. If you are finding any questions tricky the tasks stop and the programme gives you lessons to complete to help you.

If you require any of the passwords to the above programmes please send us an e-mail and we will forward those to you.

conkers@riverside.wirral.sch.uk

The topics we will be studying in the Autumn Term are as follows:

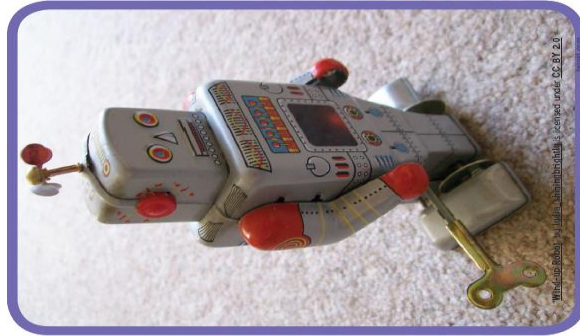

Science: **Who I am**

Draw a picture of yourself and label some of the parts of the body that you know.

History: **Toys**

Talk to members of your family. How have toys changed over the years?
Draw some of your favourite toys and discuss why you enjoy playing with them.

Can you decide which toys are old and which are new?
